

Fix Windy's Playlist

The Assignment

You select one piece of music or one song you think Mr. Windsor should love. You explain why you think he should love it based on 3 criteria; musicality, creativity, and musical message. You can explain it in an essay, Google Slide Show, selfie video, or any other means you choose, but you must include each of these three criteria, and full details of the music.

Clearly Identify the Song

What is the song's title? Who recorded it? Who wrote it? When was it written? If it is on an album, which one? If it is a cover of the original, who recorded the original?

Musicality (5 marks)

The elements of music should be discussed, if not completely, then covering at least those elements that make your song unique. These elements have been discussed in previous years, and this constitutes review of music for you. They include;

- Melody
- Harmony and Texture
- Timbre
- Rhythm and Tempo
- Form
- Articulations, Dynamics and Style

Creativity (3 marks)

Every song that gets recorded and shared to the public has some form of creativity to it. What was unique about this song that caught your ear, and Mr. Windsor should listen for? What makes it different from other songs?

Musical Message (4 marks)

Every song has a deeper meaning to the person who recorded, to the person who listens to it, and sometimes even to a wider community (Black music, Russian Patriotism music, Indigenous music). What musical message should Mr. Windsor be aware of in this song? What makes it so meaningful for you?

The Finished Product

Submit the assignment via Discord in the **#fix-windys-playlist** channel. Provide a link to the music, and discuss each of the topics above to get full marks.
